

CAPABILITIES BRIEF

COMPANY OVERVIEW

SYNCRO Corporation is a privately-held manufacturing and systems integration company with corporate headquarters located in North Alabama in **close proximity to Redstone Arsenal**, home to the Army Aviation and Missile Command, NASA, and the second largest research park in the U.S. SYNCRO offers **more than 78 years of experience** in product research and development, manufacturing, systems integration, and supply chain management solutions.

We have two facilities with a cumulative **150,000 square feet of manufacturing and high bay integration space** and provide scope to solution projects by sharing manufacturing infrastructure and best practices and processes between segments. The end result is expanded service to the customer base and an expanded vision into system integration, all brought about by an experienced team with broad perspectives in developing and implementing cost-effective **manufacturing and integration solutions**.

SYNCRO Company Profile

Larry Fleming, President

Donna Bennett, Quality Manager

Will Bishop, Director of Accounting

Jeff Huguley, VP of Operations

Harold Breen, VP of Programs and Sales

Scott Culbert, Director of Engineering

Contract Credentials

NAICS CODES: 334418, 334513, 335314, 335931, 336322, 336340, 335929, 334310, 334290, 334510, 335999, 339999

CAGE CODE: 4N1A0

CCR STATUS: ACTIVE

DUNS NUMBER: 005378518

UEI: HBG7B3NCE9A5

Certifications

- IPC & SMTA Member
- AUSA Member
- ISO 9001:2015 Certified
- IPC Training Certified
- ITAR Certified
- ISO-14001
- CMMC Level 2 UID S200028811

Markets We Serve

- ✓ Military
- ✓ Transportation
- ✓ Utilities

FOCUSED ON DEFENSE

SYNCRO Defense Solutions (SDS) focuses on system integration that utilizes the component manufacturing capabilities that have long been the core competency of SYNCRO Corporation.

SYNCRO Defense Solutions serves as a seamless extension of our customers' manufacturing, assembly, integration, management, and support services operations. We are experienced in product design and development and offer both contract and original design manufacturing (ODM) and integration services.

SDS focuses on scope to solution projects that include systems integration services that combine manufacturing networks, unified IT systems, supply chain management expertise, vertically integrated electronics manufacturing, cable and harness assembly, electromechanical box builds, and systems integration capabilities.

Our primary goal is to continuously evolve and expand our capabilities to meet market demands and deliver excellence. We are prepared to invest in the Advanced Manufacturing assets and resources needed to ensure the success of our defense customers.

SERVICES WE PROVIDE

SYNCRO
SCOPE TO SOLUTION

Manufacturing

- Electronics Manufacturing Services (EMS)
- Product Design
- Cable Assembly
- Box Build
- X-ray Equipment
- Functional Test Systems
- Surface Mount and Through Hole Circuit Board Assembly

Program Management

- Formal Project Launch Process
- Project tracking
- Open Two-Way Communications
- On-Time Delivery
- Dedicated Program Manager for Each Program

Engineering

- Radio Frequency
- Magnetics
- Prototype Design
- Test Development
- DFM (Design for Manufacturability)

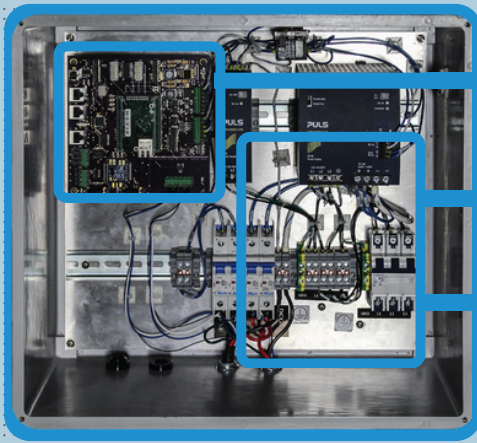

Systems Integration

- Order Management
- Complex Configuration Management
- Complete or Partial System Integration
- Test and Analysis
- Vertically Integrated In House Cable Harness
- Panel Build and Box Build Capability
- Dynamic MRP / ERP System for Automated Planning

Logistics

- Customized Labeling
- Modification Work Orders (MWO)
- HazMat Compliance
- Spare Parts Support
- Logistics Analysis & Assessments
- UUID (Universal Unique Identifier) Capability
- Custom Packaging & Labeling Design
- MIL STD 130 Compliance
- On Site Count & Condition Space

CORE COMPETENCY: END TO END ASSEMBLY PRODUCTION

ELECTRONICS DESIGN, BUILD - ACQUISITION AND INTEGRATION

MECHANICAL DESIGN

MANUFACTURING, FULFILLMENT, DELIVERY ON DEMAND *

*** SYNCRO MAINTAINS RAW MATERIAL & FG INVENTORY TO SUPPORT CUSTOMER VARIABLE DEMAND.**

Co-designing with our customer partner, SYNCRO designs a build, manufactures or assembles the electronic components, and constructs a housing assembly. SYNCRO then systemizes the process for rapid reproduction of identical builds on the established specifications.

Ongoing Partnerships

Remote Function Weapon Capabilities

MTS - Calibration, Instrumentation, Technical, Training, etal.

Counter UAS Defense

Perimeter Security and Base Defense Systems

Electronic Assemblies for Laser Management and Control

Air, Liquid and Phase-Change Thermal Management Systems

Mobile Technical Shelters (MTS)

- Instrumentation Shelter
- Diagnostic Shelter
- Maintenance Shelter
- Mobile Power Shelter
- Equipment Recharging Shelter

Mobile Technical Shelters are an integral tool for military diagnostic, analytical, test and measurement applications. The MTS system offers an adaptable solution for testing digital and analog electronic hardware and software across a range of weapons and communications platforms.
